GREYZONE

PUBLIC COURSE OVERVIEW

Digital Safe Traveler (DST)

Practical digital protection for military and DoD travelers.

24 hours	3 days	Up to 15
INSTRUCTION	COURSE FORMAT	STUDENTS

TRAVEL WITH MORE AWARENESS

Build practical habits to recognize digital exposure, manage a personal signature, and make informed security choices during deployments, TDY, official travel, and everyday digital activity.

WHAT THE COURSE COVERS

- Digital security and personal signature management
- Digital exposure and pattern-of-life risks
- Ubiquitous Technical Surveillance (UTS) awareness
- Defensive counterintelligence and OPSEC awareness
- Devices, wireless networks, encryption, and secure communications

BEFORE. DURING. AFTER.

01 Before departure

Prepare devices, accounts, communications, and travel habits.

02 While traveling

Apply awareness and sound security choices as conditions change.

03 After return

Review exposure and restore routine security practices.

PRACTICE THAT CONTINUES

Hands-on practice connects course concepts to real travel decisions. Students retain the training equipment for continued practice after the course.

EXPERIENCE BEHIND THE INSTRUCTION

Training informed by a retired USAF Combat Controller and technical instructor background.
